

# OMNIGO COURTS SOLUTION

The only online solution you need to handle today's changing courtroom environment.

The growing demand for virtual courts and the volume of digital evidence flooding the system continues to challenge courts' ability to receive, evaluate, protect, and present digital evidence. Most court management systems are not designed to manage large quantities of digital evidence on a single platform.

Courts need to find ways to immediately manage the dramatic increase in the volume of digital evidence.

Omnigo has long been a leader in physical and digital evidence management, and we're excited to expand our evidence-management solutions with Omnigo Courts. Investigators can now gather evidence effortlessly from multiple sources and securely manage all digital evidence from capture to disposition.

### Efficiently Collect and Manage All Digital Evidence in One System

Store traditional records data and multimedia in one place to ensure you're meeting regulatory standards, and data can be easily found and expunged when necessary.

### Save Time by Streamlining Evidence Collection and Management

Our end-to-end solution provides a secure electronic portal for officers to upload and access their digital evidence prior to scheduled court dates.

### Enhance Security and Ensure the Right People See the Right Things

Security control measures help ensure only the people who should see the evidence are able to view it.

### Safeguard and Monitor the Chain of Custody

Officers fully control the handling, possession, and custody of all evidence.

## EFFICIENTLY COLLECT AND MANAGE ALL DIGITAL EVIDENCE IN ONE SYSTEM

With Omnigo Courts, users can store traditional, structured records data and all multimedia together in one place, ensuring users meet regulatory standards and allowing for data to be easily found and expunged when necessary.

Users can easily upload and ensure the complete integrity of all digital evidence types and sizes, including documents, photos, video, and audio recordings.

- ▶ Centralized system for filing, storing and maintaining evidence
- ▶ Cloud-based, web-based solution
- ▶ Provides an electronic portal for litigants to upload their digital evidence before court dates
- ▶ Quickly manage the digital evidence process at every stage
- ▶ Upload evidence to a case file and a specific hearing date
- ▶ Sort the evidence, assign exhibit numbers, and keep the evidence confidential if needed

## SAVE TIME BY STREAMLINING EVIDENCE COLLECTION AND MANAGEMENT

Our end-to-end solution provides a secure electronic portal for officers to upload and access their digital evidence before scheduled court dates. Automated workflows streamline the centralized process through the court system and promote collaboration during an investigation or case.

- ▶ Quickly upload or download data to create court- or judge-ready packages
- ▶ Review and process uploaded digital evidence quickly and efficiently
- ▶ Present digital evidence in court in a way that is trackable

## STREAMLINE EVIDENCE COLLECTION AND MANAGEMENT

- ▶ Capture and upload critical evidence that can only be accessed by approved parties
- ▶ Give court clerks the ability to review and process uploaded evidence
- ▶ Provides prosecutors with a traceable method for presenting digital evidence in court
- ▶ Comprehensive analytics and reporting dashboards

## ENHANCE SECURITY AND ENSURE THE RIGHT PEOPLE SEE THE RIGHT THINGS

Omnigo Courts has security control measures in place to ensure the right people see the right things. Users can search and share evidence that is password-protected, stored in a secure data storage network, and accessible only to authorized personnel.

- ▶ Monitor and record user access activity, including those in the chain of custody.
- ▶ Builds transparency across constituents while providing data integrity and insights

## SAFEGUARD AND MONITOR THE CHAIN OF CUSTODY

Your current process may run the risk of breaking the chain of custody, security, and compliance rules compromising evidence and cases.

Omnigo Courts allows all users to fully control the handling, possession, and custody of all evidence, ensuring it is handled effectively and is always in the right hands of appropriate individuals.

Easily share evidentiary files with multiple constituencies – including other officers, prosecutors, court staff, insurance companies, and defense attorneys – in a chain of custody that automatically records who received what information and when.

## ABOUT OMNIGO

For more than 20 years, Omnigo software solutions have been the preferred choice for law enforcement, education, healthcare, gaming, hospitality, and corporate enterprises. Currently, Omnigo's solutions are used by over 2,000 customers in 20 different countries. At Omnigo, we're committed to helping customers secure their organizations' property, control operational costs, and ensure the safety of the general public.

We believe our customers deserve the best support available to protect their people, assets, and brand. We also understand how challenging it can be to protect the community without the proper resources. We're here to arm users with the best tools in the industry. With a team that includes former law enforcement, first responders, and other public safety professionals, we're uniquely qualified to understand exactly what our customers need to protect their community.
