

# SAVE TIME AND ENHANCE EFFICIENCY

with a Single Software Solution

Unlike most incident reporting and risk management solutions that require multiple disparate systems, iTrak is designed as a single, comprehensive platform. Created as the superior multi-departmental, multi-property solution for Security and Surveillance departments, iTrak delivers quick, accurate analysis, pinpointing liabilities and enhancing operational efficiencies and benefits.

### Create a Safer Environment

Audit helps users gain a better understanding of what's happening in their casino

### Protect Staff, Visitors, and Assets

The iTrak Facial Recognition module provides real-time surveillance and identification

### Help Mitigate Threats and Decrease Crime

License plate recognition identifies known vehicles and locates stolen vehicles

### Enhance Community Safety

Ensure your team is checking the right places and collecting the right information, at the right time with Guard Tour

### Act Quickly When It Matters Most

iTrak's CAD system helps you respond quicker and smarter in fast-moving situations

### Spend Less Time Focusing on Equipment Maintenance

Save time tracking, analyzing, and maintaining equipment repair and service history with Work Order

## GAIN A BETTER UNDERSTANDING OF WHAT'S HAPPENING IN YOUR CASINO

In today's fast-paced gaming environments, performing game audits, player analysis, and slot audits requires a detailed, consistent methodology that ensures accuracy. The iTrak Audit module delivers a complete standardized system for performing audits, gaming disputes, and player analyses.

- ▶ Customizable game violations, areas, and sections with multiple player analysis, results, and types
- ▶ Supports game audits across multiple supervisors and game related staff
- ▶ Complete reporting, including detail, statistics, game audit violations and dealer error reports

## ENHANCE SECURITY WITH AUTOMATED, REAL-TIME SURVEILLANCE AND IDENTIFICATION

Given the complexity and sheer number of cameras that need to be monitored in today's typical surveillance environments, subject identification is crucial. The iTrak Facial Recognition module provides an automated real-time aid in this identification process.

- ▶ Receive automatic, camera-specific real-time alerts
- ▶ Interface provides simple access to iTrak Facial Recognition alerts and closest matches
- ▶ Complete alert link to subject, physical characteristics, group details, and incident history
- ▶ Integrate with virtually any security and surveillance environment

## IMPROVE PARKING LOT SAFETY AND SECURITY

Designed as one of the most reliable and mature video analytic technologies available today, iLPR (Intelligent License Plate Recognition) helps improve safety and security by identifying known vehicles and their owners and locating stolen vehicles in parking lots.

- ▶ Accurately read plates from virtually any country, state, or province
- ▶ Use in high-traffic, multi-flow parking environments
- ▶ Capture license plates of vehicles moving at speeds of up to 140mph (225km/h)
- ▶ Identify plates and alert in real-time

## IMPROVE EFFICIENCY AND INCREASE ACCOUNTABILITY

Monitoring numerous checkpoints can be a challenge. Ensure your security team checks the right places at the right time and can easily report on their findings with Omnigo Guard Tour.

- ▶ Limit risk of liability with an audit trail and historical proof-of-presence reports
- ▶ Verify check-ins and required tasks are completed and recorded within specified timeframes
- ▶ Document incidents and upload digital media with mobile integration

## RESPOND QUICKER AND SMARTER

When time is of the essence, you need a CAD system that provides accurate, efficient data entry and officer assignment and management. Officer Dispatch delivers a complete solution, utilizing existing personnel, location, and daily log reporting.

- ▶ Enter, track, print, schedule, and assign dispatches
- ▶ Complete in-progress, pending, and officer status views
- ▶ Easily dispatch officers nearest the scene for the quickest response

## THE COMPLETE SOLUTION TO MAINTAIN WORK ORDERS AND RELATED PARTS

Analyzing part service history and replacement and repair cycles is a necessary, but time-consuming task. The iTrak Work Order module delivers a complete standardized system for tracking, analyzing, and maintaining a thorough repair and service history.

- ▶ Track work order schedules, status, and completion date and times
- ▶ Maintain and search part service history for all related work orders
- ▶ Quickly access service history for all parts, reducing overall costs

## ABOUT OMNIGO

For more than 20 years, Omnigo software solutions have been the preferred choice for law enforcement, education, healthcare, gaming, hospitality, and corporate enterprises. Currently, Omnigo's solutions are used by over 2,000 customers in 20 different countries. At Omnigo, we're committed to helping customers secure their organizations' property, control operational costs, and ensure the safety of the general public.

We believe our customers deserve the best support available to protect their people, assets, and brand. We also understand how challenging it can be to protect the community without the proper resources. We're here to arm users with the best tools in the industry. With a team that includes former law enforcement, first responders, and other public safety professionals, we're uniquely qualified to understand exactly what our customers need to protect their community.
