

One Comprehensive Solution to **ENHANCE SAFETY,** STREAMLINE OPERATIONS, AND REDUCE COSTS

You have a challenging job that only continues to grow more demanding. According to the U.S. Bureau of Labor Statistics, “healthcare workers accounted for 73 percent of all nonfatal workplace injuries and illness due to violence in 2018,” and that number continues to grow substantially. When it comes to protecting staff, visitors, and your facility, you need to be able to trust that the solutions you have in place for reporting and analyzing data stand up to your critical workload.

There’s a reason Omnigo Report Exec has been the trusted leader of reporting software for over two decades. Through a combination of industry expertise and customer feedback, we’ve created a superior end-to-end solution that is easily configurable to meet your specific needs.

Make More Informed Decisions	Streamline Operations	Save Time on Data Entry
<p>Report Exec organizes data in an easy-to-search database. Pre-formulated statistical reports, customizable reports, and a live data dashboard provide the info you need to make informed decisions.</p>	<p>Built-in communication features keep everyone on the same page. Customizable user roles and permissions ensure that everyone can access exactly what they need.</p>	<p>Report Exec eliminates time spent re-entering information by automatically populating known information. Quick-key codes and drop-down menus reduce the possibility for human error.</p>
Justify Budget Requests and Maintain Transparency	Automate Your Reporting	Ensure Efficient, Accurate Data Collection
<p>Securing your budget depends on demonstrating department impact and responsible allocation of resources. Report Exec records and organizes this information to justify budget requests and maintain accountability.</p>	<p>Save your statistical reporting filters and set your ideal delivery schedule, and your reports automatically show up in stakeholder inboxes. Automatic notifications of incidents or locations ensure that users are always kept in the loop.</p>	<p>The tree dictionary-based system ensures that statistical reporting is more accurate and efficient with data collection that's in your language and kept consistent throughout the organization.</p>

ONE INTEGRATED SOLUTION HELPS YOUR FACILITY MEET JOINT COMMISSION AND OSHA REQUIREMENTS

Effective January 1, 2022, new and revised workplace violence prevention standards will apply to all Joint Commission-accredited hospitals and critical access hospitals.

You shouldn't have to buy multiple software solutions to meet these new requirements. Report Exec has over 20 modules to help you meet changing regulations and ensure the safety of staff, visitors, and your facility. Your team only needs to learn one platform, and you can be sure that every file, report, and message is stored in one secure, searchable database.

MODULES INCLUDE:

Minimize the Risk of Workplace Violence	Reduce Workplace Accidents	Easily Compile and Generate the Reports You Need Most	Track Incident Details and Trends	Show Staff and Visitors Their Safety Is Your Priority
Document workplace violence and track any actions taken to address incidents, prevent recurrence, and monitor trends.	Record employee injuries and document the action taken to prevent recurrence. You can also collect information to complete OSHA 300, 300A, and 301 forms.	Admin reporting allows users compile the reports they need most. Reports can automatically generate, and email out based on user preference.	Track the details associated with a specific incident, and easily identify commonalities between incidents.	Public-facing portal lets staff and visitors report concerns, requests, and tips to safety officials.

BE READY TO RESPOND WITH OMNIGO MOBILE

Capture

Use the camera on your mobile device to capture images that can be attached to citations, event logs, and reports.

Create

Easy layouts and intuitive workflows reduce data entry time. Record daily events in real time and enter case report details in a flash.

Connect

Easily access your database no matter where you are. With search capabilities and better information in the field, you can make more informed decisions.

ABOUT OMNIGO

For more than 20 years, Omnigo software solutions have been the preferred choice for law enforcement, education, healthcare, gaming, hospitality, and corporate enterprises. Currently, Omnigo's solutions are used by over 2,000 customers in 20 different countries. At Omnigo, we're committed to helping customers secure their organizations' property, control operational costs, and ensure the safety of the general public.

We believe our customers deserve the best support available to protect their people, assets, and brand. We also understand how challenging it can be to protect the community without the proper resources. We're here to arm users with the best tools in the industry. With a team that includes former law enforcement, first responders, and other public safety professionals, we're uniquely qualified to understand exactly what our customers need to protect their community.
