Save Time and Money with

OMNIGO ASSET MANAGEMENT

POWERED BY QUARTERMASTER

Omnigo Asset Management powered by QuarterMaster is the superior end-to-end inventory solution for managing all assets, consumables, and returnables in one centralized system that's easily accessible by all agency units.

omnigo

Eliminate Cumbersome Spreadsheets and Paper Files

An efficient, fully compatible barcode tracking system makes it easy to control stock levels and quickly look up product information.

Know Exactly Who Has What and Where It Is

Easily track who is accountable for apparel, equipment, and supplies that have been issued.

Save Time by Streamlining Your Ordering Process

Track and manage equipment usage levels, avoid stock outages, and generate a report and usage list of items that have been issued to employees.

Protect Your Assets and Ensure Equipment Safety

Receive warranty expiration and maintenance reminders on vital equipment, and ensure you're maintaining an adequate supply of critical inventory.

Boost Efficiency and Simplify Inventory Management

Quickly and efficiently perform inventories without the need to go through paperwork and physical files.

Control Costs and Reduce Waste

Save time and eliminate paper with one centralized system that helps you control material costs and make more profitable business decisions.

ELIMINATE CUMBERSOME SPREADSHEETS AND PAPER FILES

Delete your spreadsheets and throw out your cabinets full of paper files. QuarterMaster makes it easy to track all equipment, uniforms, and supplies with intelligent barcode tracking that manages supply information and physical inventory levels in one centralized system that can be accessed by all departments.

The fully compatible barcode tracking system makes it easy to control stock levels and quickly look up information on products such as received, in inventory, and issued from stock, including physical inventories.

KNOW EXACTLY WHO HAS WHAT AND WHERE IT IS

Manage your in-stock inventory and easily track what's been checked-in or checked-out by employees and for vehicles, with a complete history of the equipment.

▶ Track guard/unit supply consumption

▶ Monitor equipment check-in/check-out

▶ Incorporated e-signatures for check-in and check-out

▶ Track assets and supplies assigned to all guards and vehicles

▶ Individual issued detail report

▶ Lists of required returnables and assets

SAVE TIME BY STREAMLINING YOUR ORDERING PROCESS

A fully streamlined audit trail verifies and eliminates inconsistencies.

▶ Set reorder point alerts on all key security equipment

▶ Prevent outages or low inventory through automation

▶ Streamline ordering through kit management and an optional online storefront

ENSURE EQUIPMENT SAFETY

We understand the importance of ensuring your equipment can stand up to your hard work. QuarterMaster can help by:

▶ Providing re-order point and warranty expiration alerts

▶ Allowing for assembly of equipment for each vehicle and tracking of all assets deployed

▶ Capturing asset maintenance checklists

▶ Tracking maintenance requests to completion

▶ Alerting users to required actions related to items that may need to be replaced

▶ Providing notifications on items that may need preventative maintenance

## BOOST OPERATIONAL EFFICIENCY AND SIMPLIFY INVENTORY MANAGEMENT

Save time by managing equipment, uniforms, and supplies in one place. Built-in tools allow users to perform inventories quickly and efficiently, without the need to go through piles of paperwork, physical files, or other makeshift organization solutions.

▶ Simplify shelf inventory management and re-stocking while managing asset usage, inspections, calibration, and maintenance

▶ Quickly inventory both serialize and "bulk" items such as uniforms and supplies

▶ Allow multiple units to receive, stock, and issue different types of equipment

CONTROL COSTS AND REDUCE WASTE

With one centralized inventory system, users can easily track supply levels, helping to ensure auditing compliance, save resources, reduce money wasted on lost assets.

▶ Track and manage usage levels of valuable equipment

▶ Avoid stock outages

▶ Generate a complete report and usage list of items issued to employees

▶ Sends re-order point and warranty expiration alerts

▶ Alert Notifications include:

  o Warranty expirations

  o Expiration for any required consumables

  o Low stock inventory
