Comprehensive

DISPATCH, COMMAND, AND PLANNING CAPABILITIES

FOR LAW ENFORCEMENT

With the introduction of CADblue, Omnigo continues its tradition of market leadership by consolidating dispatch, command, and planning capabilities into a turnkey solution specifically designed to meet the demanding needs of law enforcement and public safety. With the addition of command and planning capabilities, CADblue extends a robust suite of tools beyond the dispatch center to enable the support of incident commanders, specialty response teams, special event planners, and more.

CADblue

Key capabilities include:

▶ Modern incident creation and unit assignment process, supported by click and drag and command line options

▶ Pre-configure specific run cards and unit assignment groups based on incident type

▶ Interface with best of breed solutions for E-911, NCIC, NFIRS, and more

▶ Configure pre-plans for specific locations, planned events, or incident types

▶ Manage on-scene resources, tasks, and checklists on a map-centric common operating picture

Regardless of the size of your response, CADblue helps streamline and simplify processes and level up your tracking, reporting, and data analysis.

Planning

Whether it's planning for a cat in a tree or a Cat 5 hurricane, Dispatch+ helps relieve manual workload and provides a centralized location for all documentation and ICS forms.

Command

Manage events live and quickly communicate and collaborate with all necessary stakeholders.

Dispatch

Increase CAD efficiency and improve emergency outcomes by automatically locating calls and simultaneously displaying multiple maps

ENSURE YOUR TEAM IS PREPARED TO MOBILIZE AND ACT QUICKLY WITH OMNIGO COMMAND AND PLANNING

Whether you're managing day-to-day incidents or large-scale, multi-agency responses, trust Omnigo Command and Planning, powered by Rhodium, to help ensure your security team is ready to mobilize and act quickly — when it matters most. Our intuitive, fully scalable software helps your organization gain valuable insights and improve prevention and response by leveling up your tracking, reporting, and data analysis.

Update Event Plans Instantly	Strong Multi-Layered Mapping Capabilities	Save Time with Report Sharing
Key stakeholders can quickly access, monitor, and update information instantaneously from anywhere.	Your team can import layers, build custom layers, or use one of Omnigo's standard layers, which can be part of pre-plans or enabled during an event.	Multiple users can collaborate simultaneously, using multiple devices, for faster, more efficient, complete, and compliant reporting.

Share Information with Key Stake Holders in Seconds	Digitize FEMA Paperwork	Upgrade from Manual Plans and Develop One Centralized Resource
Quickly communicate and share critical information with necessary parties and help reduce response times.	By digitalizing the FEMA ICS process, you can save time and create a consistent, replicable process.	Our mobile, cloud-based solution allows users to store all pre-plans in one centralized location.

ACT FASTER AND SMARTER WITH OMNIGO DISPATCH

Ensure the right people are in the right place, at the right time with Omnigo Dispatch, which allows users to easily manage, monitor, and document incidents and resources.

Dispatch Monitoring	Streamline and Simplify Information Gathering
Gain real-time access to CAD information and easily search CAD information and view live and historical CAD event data and activity logs.	User-friendly software provides prompts for required information and instant access to reference lists and online help, while phone numbers and street directions are available instantly.

| Reduce Response Times	Quickly Ascertain Priority Info and Call Status
Quickly gather priority information and call status with an advanced graphical interface and multiple monitor support that enables operators to take swift and accurate action.	Our advanced Graphical User Interface allow dispatchers to quickly ascertain priorities and the status of officers and related information.

ABOUT OMNIGO

For more than 20 years, Omnigo software solutions have been the preferred choice for law enforcement, education, healthcare, gaming, hospitality, and corporate enterprises. Currently, Omnigo's solutions are used by over 2,000 customers in 20 different countries. At Omnigo, we're committed to helping customers secure their organizations' property, control operational costs, and ensure the safety of the general public.

We believe our customers deserve the best support available to protect their people, assets, and brand. We also understand how challenging it can be to protect the community without the proper resources. We're here to arm users with the best tools in the industry. With a team that includes former law enforcement, first responders, and other public safety professionals, we're uniquely qualified to understand exactly what our customers need to protect their community.
