SOFTWARE SOLUTIONS FOR CORPORATE SECURITY

CORPORATE SECURITY PORTFOLIO

Gain actionable insight for a single or multi-property business through the efficient capture, management, and sharing of information between security, surveillance, and operations departments using a highly configurable and integrated portfolio of capabilities with an intuitive interface and centralized data.

RECORDS MANAGEMENT

CENTRALIZED DATA

All departments and facilities capture and manage their own data in a single, centralized database which provides the ability to perform searches, generate trend reports, and transmit safety alerts across the entire company.

COMMON USER CONTROLS

A highly configurable interface and flexible data input capabilities allow departments to utilize information and terminology specific to their needs while maintaining common user controls across all departments for ease of administration, training, and reporting.

COMPUTER-AIDED DISPATCH

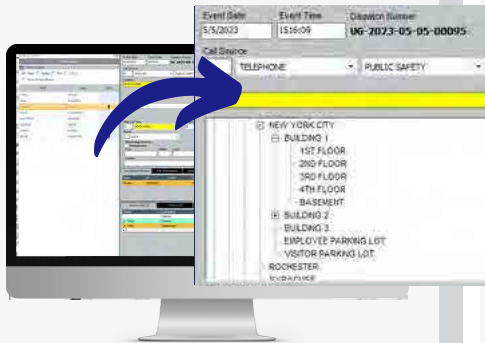

omnigo 

REDUCE THE TIME TO DISPATCH BY STREAMLINING DATA ENTRY AND SIMPLIFYING OFFICER ASSIGNMENT

FAST DISPATCH DATA ENTRY

Reduce the time and effort entering data by simply typing the first few letters in any field, such as building location, or selecting from a pre-defined treed structure of choices, and allowing automatic population of data.

INTELLIGENT DISPATCH BY RESOURCE

System automatically recommends officers with the most appropriate training and units best equipped to respond within the assigned area based on incident type.

QUICK INCIDENT BASED DECISIONS

Consult instantly available situation response data such as building floorplans, evacuation routes, and resource call lists based on the incident location or type - then provide awareness to responding officers.

SECURITY MANAGEMENT

omnigo

ROUTINELY VERIFY SAFETY AND COMPLIANCE IN ALL LOCATIONS USING AUTOMATED PROOF OF PRESENCE SECURITY CHECKS

MOBILE APP

Officers use a mobile app to report incidents, note noncompliance issues, and share evidence via uploaded digital media in areas with or without network connectivity.

SCHEDULED SECURITY CHECKS

Pre-scheduled routines and routes saved in the system prompt officers using a mobile app to conduct required location-based security checks such as ensuring all keypads to doors in sensitive areas are working properly.

AUTOMATIC PROOF OF PRESENCE

Integration with check point technologies like barcodes, beacons, and NFC tags assist in automatically recording the time, date, and location of the officer at each assigned stop.

DAILY ACCOUNTABILITY AND AUDIT

Custom forms ensure officers complete important tasks while automated notifications alert supervisors to exceptions such as tours not starting on time, ending on time, or stopped before completion.

PROPERTY MANAGEMENT

omnigo

ENSURE ACCURACY OF OWNERSHIP AND SECURE RETURN OF FOUND ITEMS USING COMPREHENSIVE VERIFICATION AND REPORTING PROCESSES

REPORTING ITEMS

Customizable dropdown menus make entering details about a lost or found item like category, color, and location, easy and consistent, increasing the likelihood of data matching the owner to the found item.

MATCHING ITEMS

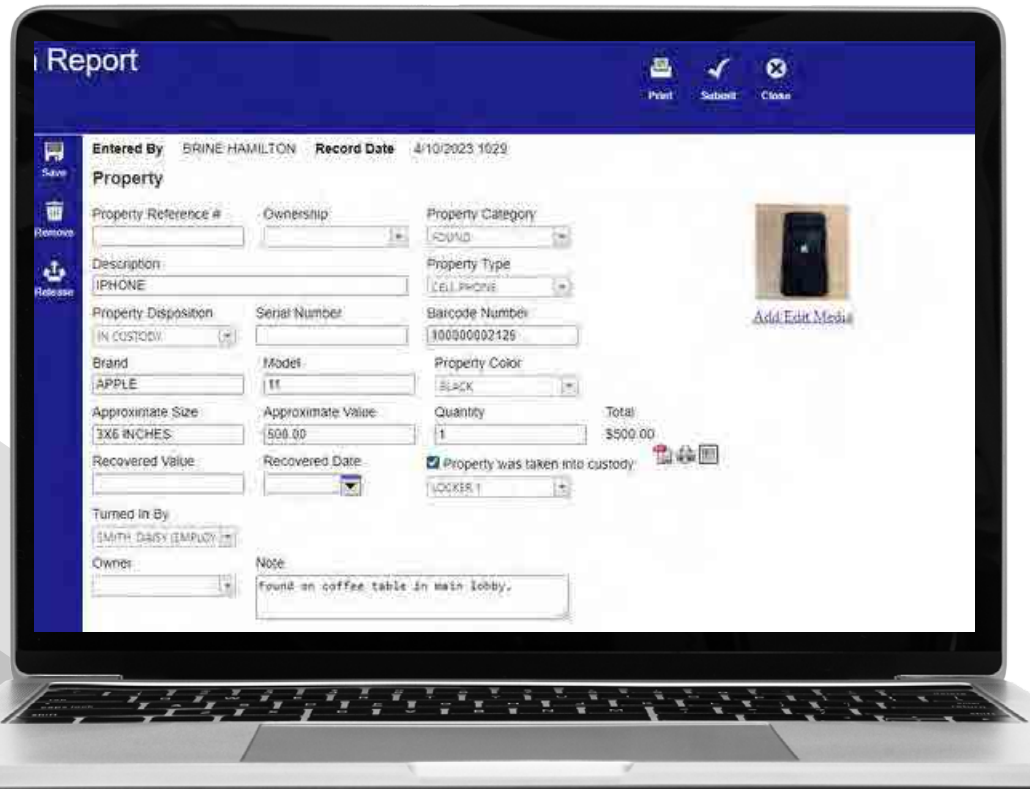

One-button click during entry of a new lost or found item performs an automatic search to find potential matches in the system, speeding the return of items while reducing the likelihood of duplicating data.

RETURNING ITEMS

Returning a found item automatically launches a verification process in which release forms are printed, notes are captured, and custody of the item is cleared from inventory.

The screenshot displays the 'Report' form in the Property Management software. The form is titled 'Report' and includes a sidebar with 'Save', 'Remove', and 'Release' buttons. The main form area contains the following fields:

- Entered By:** BRINE HAMILTON
- Record Date:** 4/10/2023 10:29
- Property Reference #:** (empty)
- Ownership:** (dropdown menu)
- Property Category:** FOUND
- Description:** IPHONE
- Property Type:** CELL PHONE
- Property Disposition:** IN CUSTODY
- Serial Number:** (empty)
- Barcode Number:** 100900002125
- Brand:** APPLE
- Model:** 11
- Property Color:** BLACK
- Approximate Size:** 3X6 INCHES
- Approximate Value:** 500.00
- Quantity:** 1
- Total:** \$500.00
- Recovered Value:** (empty)
- Recovered Date:** (empty)
- Property was taken into custody:** (checked)
- Turned In By:** SMITH, DAISY (EMPLOY)
- Owner:** (empty)
- Note:** found on coffee table in main lobby.

There is also a small image of a black iPhone and a button labeled 'Add/Edit Media'.

MITIGATE FUTURE RISK BY PROACTIVELY RECORDING, REPORTING, AND IDENTIFYING TRENDS USING INCIDENT REPORT DATA AND POWERFUL ANALYTICS

RECORD RISK

Risk Managers can add risk information such as root cause, severity, and likelihood of reoccurrence directly into the incident report and assign individuals to take preventative measures by specific due dates.

Risk Information

MOBILIZE YOUR SECURITY TEAM AND COORDINATE THEIR EFFORTS AROUND A SCHEDULED EVENT OR INCIDENT RESPONSE USING CENTRALIZED PREPLANS AND REAL-TIME COMMAND CENTER CAPABILITIES

PLAN

Create new or input existing preplans and associate them with critical resources such as response checklists, building floor plans, and evacuation routes - then connect with CAD to auto-launch by incident location or type.

RESPOND

Execute and manage response plans using a central command board map that provides real-time, location-based information including deployed resources, surrounding traffic conditions, activity logs, and streaming CCTV cameras.

RECOVER

Analyze response performance post-incident by examining logged data such as time for resources to arrive on scene, checklist effectiveness, and access to buildings - then make changes directly in the plan based on learnings.

EVERSURE

At Omnigo, the greatest contribution we make to your success is ensuring your enjoyment and creative use of our products for life. Central to this belief is our commitment to providing you ongoing access to the services and resources we know play a critical role in getting you there.

Included with every product, Omnigo EverSure™ is a unique blend of ongoing training, consulting and support services that continuously protects and increases the value of your investment as your business evolves.

TRAINING

As your business changes, so do the people who use your Omnigo products. There's no need to rely on train the trainer or other internal efforts to keep everyone current. EverSure closes the knowledge gaps by providing New User Training, Refresher Training, and 24/7 online access to Omnigo University.

CONSULTING

When new mandates enter the business, they often require you to examine and adjust your work processes for compliance. Don't leave anything to chance. EverSure can get you in alignment by providing consulting services including Configuration Optimization, Security Optimization, and Product Enhancements and Insights.

SUPPORT

Everything runs fine until it doesn't. And that's when you need all the help you can get. EverSure offers you an assist any way, any time through Live Agent Help Desk, 24/7 Emergency Support, and 24/7 Online Support Portal.

PROTECT YOUR EMPLOYEES, ASSETS, AND VISITORS
