# COURTS SOLUTION PORTFOLIO

Accelerate the movement of digital and physical evidence in your courtroom using a cloud software platform that securely manages all evidence through receiving, presenting, and disposal.

**DIGITAL EVIDENCE MANAGEMENT**

**PHYSICAL EVIDENCE MANAGEMENT**

**EXHIBIT MANAGEMENT**

## EASILY AND SECURLEY RECEIVE EVIDENCE

Maintain and enhance your chain of custody by streamlining intake of electronic evidence to your courts before hearing dates using a secure cloud portal available to all parties.

**KEEP THE CHAIN OF CUSTODY**
Create a traceable and auditable record of every piece of submitted evidence including who viewed it, when it was viewed, and how it was viewed.

**EASILY UPLOAD AND MANAGE**
Remove the burdensome process of physically receiving digital evidence via thumb drives and DVDs by directing parties to your custom court portal for remote uploading of all file types.

**SHARE FOR DISCOVERY**
Uploading parties, clerks, and judges can share evidence with other parties by creating a secure Virtual Viewing Room that uses dual-authentication security and timebound limitations.

# SIMPLIFY EVIDENCE PRESENTATION

Simplify the preparation and presentation of evidence using powerful search capabilities, detailed audit trails, and an intuitive presentation approach that can work seamlessly with your existing Court Management System.

### PREPARING EVIDENCE
Quickly locate evidence using search criteria such as Department/Location, Hearing Date, or Case/Citation Number - then preview each and admit, mark, or leave as viewed.

### INSPECTING EVIDENCE
Easily inspect the history of evidence with one click viewing of meta data showing all operations performed including uploads, views, shares, and updates by individual and date/time.

### PRESENTING EVIDENCE
Confidently control the presentation of evidence from and to a variety of local or remote display devices, including enlarging images, playing video, or paging through documents - previewing each using the *film strip* feature.

# AUTOMATE EVIDENCE RETURN AND DISPOSAL

Automate the return and disposal of uploaded evidence by automatically notifying submitting parties and utilizing workflows to take action per court stipulations and retention policies.

### ALERTING EVIDENCE OWNERS
With a one mouse click, a court-authorized user can mark a case as *Completed* and start an automated workflow that sends a disposal date email alert to all parties with uploaded evidence.

### AUTHORIZING EVIDENCE DISPOSAL
Exhibit Custodians receive automatic alerts for cases requiring further review with the option to accept or reject disposal, returning evidence to the clerk with reasons selected from a customizable drop-down list.

### MANAGING WITH REAL-TIME DATA
Personnel time and data resources can be efficiently managed using standard and custom real-time statistical reports including *Total Uploaded Exhibits*, *Total Exhibits Purged*, and *Purged Cases by Case Type*.
