CENTRALIZED DATA

All campuses capture and manage their own data in a single, centralized database which provides the ability to perform searches, generate trend reports, and transmit safety alerts campuswide.

COMMON USER CONTROLS

A highly configurable interface and flexible data input capability allow each campus to utilize information and terminology specific to their needs while maintaining common user controls across all campuses for ease of administration, training, and reporting.

DISPATCH

SOFTWARE SOLUTIONS FOR CORPORATE SECURITY

DISPATCH SMARTER. RESPOND FASTER

YOUR SHIFT. YOUR CALL.

Personalize your dispatch software environment so you can perform at your best. Effortlessly undock and arrange multiple windows across multiple monitors, select the data views that keep you focused under pressure, and customize color schemes that bring visual comfort, keeping you sharp the entire shift.

INSTANT AWARENESS FOR EVERY RESPONSE

Immediately access vital documents unique to the call response location. Building floorplans, HAZMAT procedures, and critical contact lists instantly appear and provide the situational awareness needed for a quick and safe response, every time.

CALL COLLABORATION WITHOUT THE SLOW DOWN

Enable multiple dispatchers to work on a single event, simultaneously updating information without interfering with other's work and without kicking anyone out of the call. When one dispatcher is editing a field, it temporarily locks the field with the initials of the editing dispatcher, but all other fields remain open for input, ensuring smooth operations without delays or errors.

STAY INFORMED AND SAVE TIME

Keep track of your officers' status in real-time with the Omnigo Mobile App. With just a tap in the app, officers can update their status – whether en route, on scene, or clearing – keeping you informed every step of the way and saving time spent on verbal check-ins. Each update is automatically time-stamped and recorded, ensuring an accurate and reliable record of the response.

ACCELERATE RESPONSE WITH UNIFIED DATA

Omnigo web-based dispatch software seamlessly shares a central database with other Omnigo applications, making data instantly available for efficient workflows and reporting. Information on persons, vehicles, and addresses is quickly accessible across Omnigo's records, evidence, incident, and visitor management modules, enabling fast searches and auto-population of fields within the dispatch software.

TRANSFORM DATA INTO ACTIONABLE INSIGHTS

Leverage Omnigo's powerful reporting and analytic software to gain insights from dispatch data. Analyze average response times, identify incident hotspots, and monitor dispatcher performance. Use these insights to refine your strategies, optimize resources, and enhance overall safety.

SOFTWARE SOLUTIONS FOR EDUCATION

EASILY MANAGE YOUR PARKING PROGRAM FROM PERMIT ISSUANCE TO FINE COLLECTION IN ONE ALL-INCLUSIVE SYSTEM

EASILY MANAGE PERMITS

Quickly and easily review and approve/reject permit requests submitted by students, staff, and faculty through an online portal. Once issued, permit information is accessible by officers in the field.

PERFORM ALL ACTIVITIES ON THE APP

Officers can complete all activities through a mobile application including reviewing prior citations and warnings, preparing and printing tickets, and uploading pictures of vehicles in context of their violation.

DRIVE DECISIONS USING ANALYTICS

View customizable analytic reports that quickly identify the type, location, and timing of violations that are impacting your campus the most and then allocate resources appropriately based on the historical data.

ENSURE ACCURACY OF OWNERSHIP AND SECURE RETURN OF FOUND OR SEIZED ITEMS USING COMPREHENSIVE VERIFICATION AND REPORTING PROCESSES

REPORTING ITEMS

Customizable dropdown menus make entering details about an item like category, color, and location, easy and consistent, increasing the likelihood of data matching the owner to the item.

MATCHING ITEMS

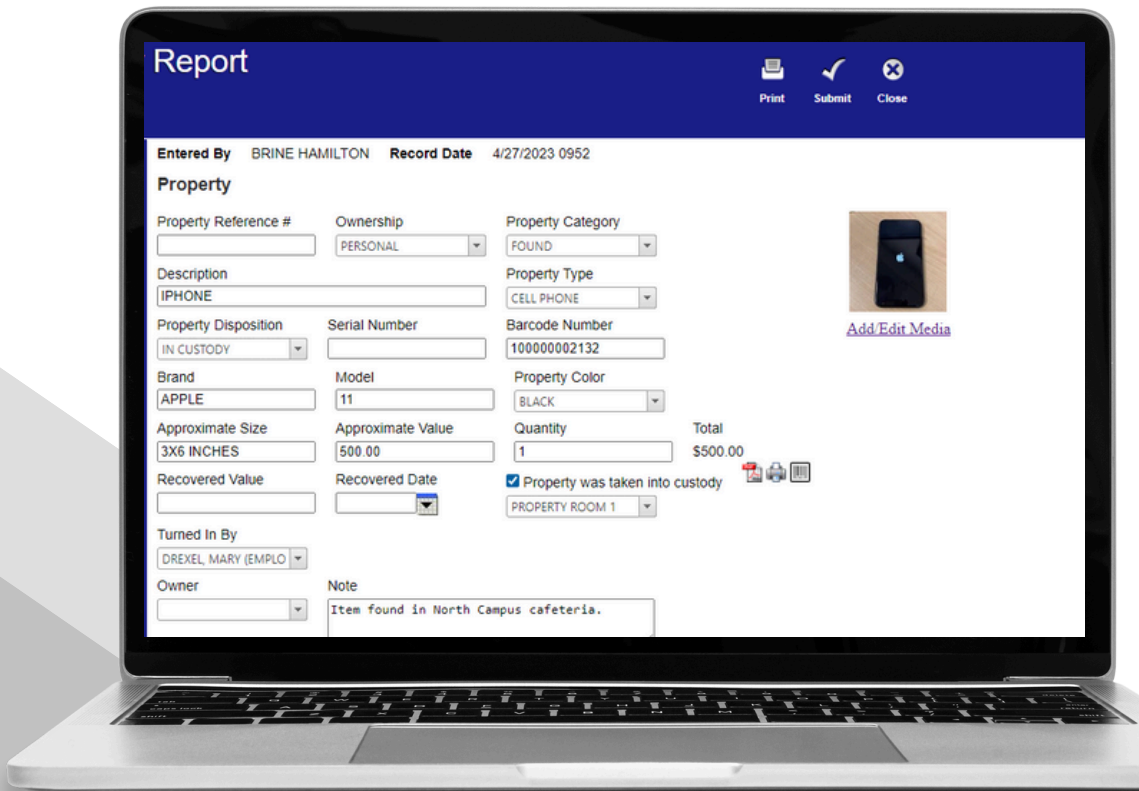

One-button click during entry of a new item performs an automatic search to find potential matches in the system, speeding the return of items while reducing the likelihood of duplicating data.

RETURNING ITEMS

Returning an item automatically launches a verification process in which release forms are printed, notes are captured, and custody of the item is cleared from inventory.

ROUTINELY VERIFY SAFETY AND COMPLIANCE ACROSS CAMPUSES USING AUTOMATED PROOF OF PRESENCE SECURITY CHECKS

MOBILE APP

Officers use a mobile app to report incidents, note noncompliance issues, and share evidence via uploaded digital media in areas with or without network connectivity.

SCHEDULED SECURITY CHECKS

Pre-scheduled routines and routes saved in the system prompt officers using a mobile app to conduct required location-based security checks such as ensuring all keypads to doors in sensitive areas are working properly.

AUTOMATIC PROOF OF PRESENCE

Integration with check point technologies like barcodes, beacons, and NFC tags assist in automatically recording the time, date, and location of the officer at each assigned stop.

DAILY ACCOUNTABILITY AND AUDIT

Custom forms ensure officers complete important tasks while automated notifications alert supervisors to violations such as tours not starting on time, ending on time, or stopped before completion.

COMMAND AND PLANNING

omnigo

MOBILIZE TEAMS AND COORDINATE EFFORTS AROUND DAILY SCHEDULED EVENTS OR INCIDENT RESPONSE USING CENTRALIZED PREPLANS AND REAL-TIME COMMAND CENTER CAPABILITIES

PLAN

Create new or input existing preplans and associate them with critical resources such as response checklists, building floor plans, and evacuation routes - then connect with CAD to auto-launch by incident location or type.

RESPOND

Execute and manage response plans using a central command board map that provides real-time, location-based information including deployed resources, surrounding traffic conditions, activity logs, and streaming CCTV cameras.

REPORT

Analyze response performance post-incident by examining logged data such as time for resources to arrive on scene, checklist effectiveness, and access to buildings - then easily populate ICS forms for reporting.

CLERY REPORTING

omnigo

COMPLETE CLERY REPORTING IN SECONDS, NOT WEEKS

EASY INCIDENT REVIEW ASSISTS CLERY OFFICERS

As officers submit incident reports, the Clery Officer takes a few moments to routinely review them. The Clery Officer can determine the incident is not Clery reportable and provide commentary supporting the decision or can move forward and supply the required data directly in the report.

Case Number 2023-65

☒ This report does NOT require Clery statistics

☐ This report does require Clery statistics

☐ Timely Warning Issued

☐ Mark Clery Information as Reviewed

Classification Notes:

Student had party in dorm room. After everyone left the room, student noticed her purse was missing. Classified as theft.

Spell Check

GUIDED INPUT AND BUILT-IN LOGIC ENSURES REPORTING ACCURACY

Pre-configured dropdown picklists, check boxes, and radio buttons dramatically reduce the chance of input error. Pop-up tooltips provide definitions when hovering over a crime category and built-in logic reveals additional data fields based on the prior selection.

EVERSURE

At Omnigo, the greatest contribution we make to your success is ensuring your enjoyment and creative use of our products for life. Central to this belief is our commitment to providing you ongoing access to the services and resources we know play a critical role in getting you there.

Included with every product, Omnigo EverSure™ is a unique blend of ongoing training, consulting and support services that continuously protects and increases the value of your investment as your business evolves.

TRAINING

As your business changes, so do the people who use your Omnigo products. There's no need to rely on train the trainer or other internal efforts to keep everyone current. EverSure closes the knowledge gaps by providing New User Training, Refresher Training, and 24/7 online access to Omnigo University.

CONSULTING

When new mandates enter the business, they often require you to examine and adjust your work processes for compliance. Don't leave anything to chance. EverSure can get you in alignment by providing consulting services including Configuration Optimization, Security Optimization, and Product Enhancements and Insights.

SUPPORT

Everything runs fine until it doesn't. And that's when you need all the help you can get. EverSure offers you an assist any way, any time through Live Agent Help Desk, 24/7 Emergency Support, and 24/7 Online Support Portal.

PROTECT YOUR EMPLOYEES, ASSETS, AND STUDENTS
