HOUSING AUTHORITY SOLUTIONS PORTFOLIO

Gain actionable insight for a single or multi-property housing authority through the efficient capture, management, and sharing of information between security and operations departments using a highly configurable and integrated portfolio of capabilities with an intuitive interface and centralized data.

RECORDS MANAGEMENT

OPERATIONS MANAGEMENT

EVIDENCE MANAGEMENT

RECORDS MANAGEMENT

Efficiently capture, manage, and share information between departments and locations using a single user interface and centralized data.

ENSURE ACCOUNTABILITY
Fully document and manage all officer involved events from intake through completion, tracking performance indicators such as time to respond and total man hours invested.
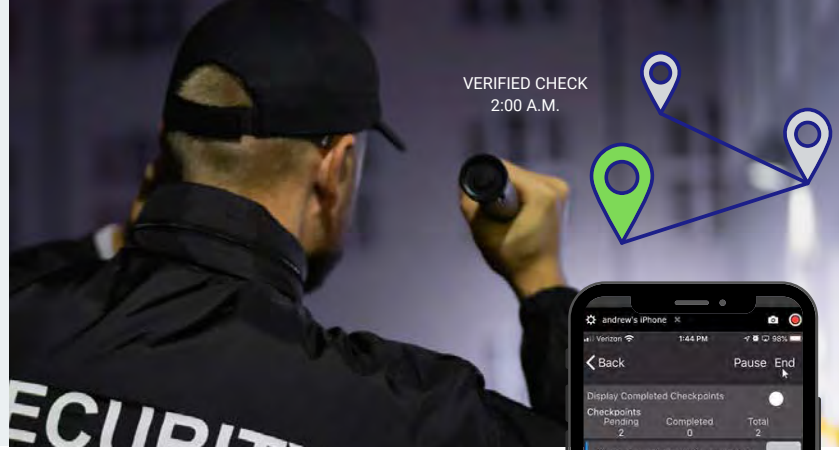

EASILY SHARE INFORMATION
Quickly share time sensitive information using automated email alerts triggered by incident type and/or location such as notifying a property manager of a vandalized access control keypad in the lobby.

DRIVE DECISIONS USING DATA
Utilize centralized data and analytical reporting to understand what, where, and when incidents are occurring, then increase staffing or deploy technology in the most problematic areas.

OPERATIONS MANAGEMENT

Routinely verify and log safety compliance in all locations using automated proof of presence security checks.

VERIFIED CHECK
2:00 A.M.

SCHEDULE SECURITY CHECKS
Pre-scheduled routines and routes saved in the system prompt officers using a mobile app to conduct required location-based security checks such as ensuring all keypads to doors in sensitive areas are working properly.

AUTOMATE PROOF-OF-PRESENCE
Live integration with check point technologies like barcodes, beacons, and NFC tags assist in automatically recording the time, date, and location of the officer at each assigned stop.

AUDIT DAILY ACCOUNTABILITY
Custom forms ensure officers complete important tasks while automated notifications alert supervisors to violations such as tours not starting on time, ending on time, or stopped before completion.

MOBILE APP
Officers use a mobile app to report incidents and upload digital evidence in areas with or without network connectivity.

EVIDENCE MANAGEMENT

Clear officers from scenes faster and start investigations sooner by streamlining evidence gathering and sharing.

CAPTURE, NOTATE, AND UPLOAD
Document incidents quickly by capturing images and videos using a smart device app, and then annotate each item using voice to text or keyboard entry before uploading via cellular or Wi-Fi network connection.

SECURELY SHARE
Easily share digital evidence with property managers, board members, or local authorities using a secure link invite to a virtual viewing room where permissions can be set around file viewing, downloading, and sharing.

ENGAGE THE COMMUNITY
Speed the submission of community-captured evidence such as CCTV and door camera footage by sending secure links to mobile numbers or email accounts for file uploading.
