CREATE A SAFER COMMUNITY

Omnigo Community connects your employees, visitors, and members of the community to first responders with a convenient, easy-to-use mobile app.

HELPS INCREASE COMMUNITY TRUST AND SAFETY

Users can anonymously report incidents or suspicious behavior to security via a simple, two-way chat interface that supports photo and video file attachments.

COMMUNICATE QUICKLY IN FAST-MOVING SITUATIONS

Notify users quickly with push notifications. Omnigo Community's GPS capabilities enable messages to be sent to all users or those located in a specific area.

omnigo

SAFETY PROCEDURES AND POLICIES AT YOUR FINGERTIPS

Upload and store safety procedures and policies for easy, mobile access by members of your community.
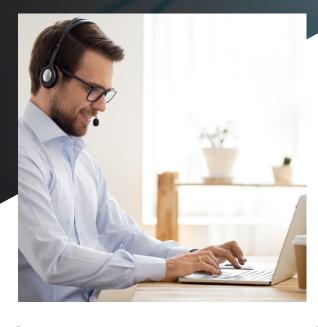

MAKE MORE INFORMED DECISIONS

Optional integration with Omnigo Incident Reporting enables you to examine and analyze incident data from a bird's-eye view — and in real time — to gain deeper insight into what, when, and where incidents are occurring.

KNOW WHERE YOU'RE NEEDED MOST

Provide your community with an extra level of protection. GPS capabilities enable you to pinpoint where reports are generated, so you can quickly dispatch officers to a user's location.

▶ Provide location-based or organization-wide push notifications

▶ Integrates with both Omnigo Dispatch and Incident Reporting

▶ Generate case reports from submissions

▶ Customize with your organization's branding

▶ Allows users to submit anonymous reports, if desired

▶ Accessible via a secure, online dashboard or Omnigo Dispatch

▶ Integrates with Omnigo Incident Reporting
